

## **Learning Diary from Telsiai Adult School about the meeting in Constance**

Project partner meeting in **Constance** left many indelible impressions. We were gladdened with perfect environment of communication and work, the care of organizers and excursion. It was very interesting to hear about the experience of partners to watch the film of the most interesting moments of the project. It was great to have the opportunity to do the group work – to express graphically the experience gained in this project, to summarize the crucial values and possibilities. The other extremely strong moment of the meeting – organized lessons of various languages. This was amazing!

In Constance we met many wonderful people and we saw such a beautiful town that attracts with its original sculptures, cosy streets of old town, colorful flowers and romantic shore.
