Learning Diary from Telsiai Adult School about the meeting in Telsiai

The meeting in Telšiai warmed partners with sincere communication despite not very warm weather. At first teachers and administration of Telsiai Adult school presented there school and talked about the significance of this project to our community. Students showed their creative works, sang some national songs and entertained guests with exclusive national dishes. Art teacher Aušra Sirutienė organized wonderful workshop of drawing on the glass where partners were introduced the main symbols of Lithuanian folk art and their meaning to people. It was great to relax while drawing and communicating with each other. Also guests went to an excursion in Telšiai town where they could see the most interesting sights and hear some historic facts of our wonderful town. The final day delighted partners with tour to Plateliai and visit in the homestead where everyone had the opportunity to taste national dishes, sing songs and share the experience and impressions.

We are very happy about the meeting in our town and the best thing that shows the success of this meeting was the frank smiles and thanks from all the partners.
